*John A. Cunningham, Jacksonville, Fla.*

AT THE present prices, Burning Oils are being sold in the Jacksonville territory for less than the Independent Refiners could obtain for their crude product at the Wells. Why? Because the Slide is so well greased. A great many of our friends are "Pushing," but they could push a little harder by getting their neighbors who are NOT pushing to join in the work. It's up to the Retail Merchant to keep the ball rolling. What we want is your orders for RED "C" OIL, absolutely independent of all trust.
